**ALLOWANCE**

1. The amendment filed 1/29/2007 has been placed of record in the file.
2. Claims 1, 11, and 15 have been amended.
3. Claims 1-20 are allowed.

***Continued Examination Under 37 CFR 1.114***

4. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous office action has been withdrawn pursuant to 37 CFR 1.114. The applicant's submission filed on 1/29/2007 has been entered.

***Priority***

5. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Allowable Subject Matter***

6. The following is an examiner's statement of reasons for allowance:

Claims 1, 11, and 15 as amended distinguish themselves over the prior art by delineating a method for handling an information item in which an ident code can be used by the information provider to ensure that the information item is not deleted from a service provider as described in detail in the claims. For example, claim 1 presents the information item (see element 10 of the

Art Unit: 2152

specification) as being transferred from the information provider to the service provider where it is made publicly access via a network address, while the ident code (see element 15 of the specification) is provided by the service provider to the information provider and later transmitted back to the service provider to prevent deleting of the information item and to reset the monitoring period of the information item. In addition to these features, it is important to note that the ident code is described as unambiguous. See pages 8-9 of the remarks filed 1/29/2007. With the current amendment clarifying the use of the ident code in the independent claims, the claims show a patentable distinction over the prior art. Furthermore, the prior art gives no indication that it would have been obvious to one of ordinary skill in the art at the time of the applicant's invention to handle an information item between an information provider and a service provider in the fashion presented in the independent claims.

Claims 2-10, 12-14, and 16-20 are allowed due to their dependence on claims 1, 11, and 15.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
